The man who had the bundle was Capt. William A. Jones of the New York Police Department, whose uncanny wrapped his package would have re-vealed a dummy human figure. If the North Carolina authorities permit it, this detre will be exhibited by Capt. Jones in the Coroner's court room at Concord, and with its help he will give the jury and with its help he will give the jury his theory of the shooting of Mrs. King. With pistol and revolver, duplicates of those carried by the target shooting party of which Mrs. King was a member parts of which Mrs. King was a member on the evening of her death at Black-welder Spring, Capt. Jones has been experimenting day after day at New York Police Headquarters. He has fired his weapons at many distances at angles. He has held them close to the head of his manikin, he has lain on the floor, be has measured off distances correspondence in the season of the close of the season of the delibert of the de ing to those on a chart of the dell that enclosed Blackwelder Spring, and done his shooting in every conceivable way.

## Has Studled All Data,

Capt. Jones has studied every scrap of data bearing on the death of Mrs. King. These include the record of the first inquest, which resulted in a verdict that the woman had either shot herself while carelessly handling an automatic target pistol or had been killed by the acfrom the crotch of a tree where her busi-ness adviser. Gaston B. Means, said he aced it before stooping to drink from

Capt Jones also knows by heart the King had been murdered. With motives and personalities Capt. Jones has had nothing to do. He has restricted him-self to a study of the possible manner

of the actual shooting.

The result is, it was said yesterday after Dooling and his party had gone. hat Capt. Jones is willing to stake hi reputation on his belief that Mrs. King ould not have been killed accidentally the manner suggested by witnesser-fare the Concord Coroner on the day clowing the event.

With Dooling also went Dr. Otto H. Schultze, medical assistant to the Dis-trict Attorney. As a Caroner's physi-cian he has made countless autopsies fus testified in many criminal is. He has been quietly at work on "King case." He is ready to testify he King case. He is ready to testify that the bullet that penetrated Mrs. King's skull back of the left ear took

nward course. Schultze will give his opinion that this fact and the absence of powder marks indicate that Mrs. King was not briding the pistol; also that the course of the bullet indicates that the pistol not fired from or near the ground.

On the same train, as it happened, went Gaston Means's brother, Afton, and Henry Deutsch, father of Mrs. Afton Means and an assistant of Gaston Means and an assistant of Gaston Means and an assistant of Gaston Means in his business affairs.

Afton Means was a member of the target shooting party at Concord on August 29, but he and others have testified that he did not see Mrs. King shot. He will repeat his former testimony Monday. Deutsch is likely to be a witness if the Coroner admits testimony regarding the business relations of Gaston Means and Mrs. King. Having been St. 10,000 BAIL GIVEN

Arthur Williams, general commercial manager of the New York Edison, issued a call for 10,000 women to canvass that hed that he did not see Mrs. King shot. He will repeat his former testimony Monday. Deutsch is likely to be a witness if the Coroner admits testimony regarding the business relations of Gaston Means and Mrs. King. Having been subprensed he has spent his days and evenings lately with Dooling.

For nearly two weeks vague reports

have sprung from Concord and else-where that the authorities had found an eyswitness to the shooting. Dooling and District Attorney Swann have refused to answer questions about this It was learned yesterday, however, that while the New York investigation was going on a public officer received a letter from somebody whose name is hidden and who asserted that he—or may be a woman—had seen Mrs. ing killed. The signature was sup-oved to be "phony."

## Many Anonymous Letters.

It is believed here that the person who wrote it has been found, but whether he really saw what he says he did is a question to be answered later. It should be said that the authorities have received an extraordinary number of anonymous and falsely signed letters. It developed yesterday that the telegram received in New York on the night of Mrs King's death, saying it was "peculiar" and suggesting investi-nation, was signed "Sanford." The sender has been run down and "San-ford" is not his name.

Decling is taking to Concord several hand grips full of papers, most of which came from the apartment of Gaston B. Means at 1155 Park avenue. He will reach Concord this morning and lay his evidence before Hayden Clement, solicitor of Cabarrus county. In a telegram to District Attorney Swann yesterday Clement asked that the most pertinent documents be brought by thooling and said he was glad that Capt.

More letters indicating the methods of Guston Means and his associates were made public here yesterday. In January last a man who figures in the case, writing from Chicago to an intimate this city, said:

"Of course avoid if possible coming in contact with newspaper reporters. It you or anybody associated with me here in New York should by any chance be subprensed as a witness to appear before either the county District Attor-ncy or a Federal District Attorney, all of you take the position that you know absolutely nothing about my business, but advise any such officials that they can reach me at the Chicago Beach Hotel and get from me direct the information they desire."
